DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 57,59,63-65, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,340,747 (Eden).

The Eden patent discloses a microbiological testing apparatus (10) comprising a carousel assembly (14) which is adapted to mount a plurality of test panels (11) each having a plurality of wells; an enclosure (28) surrounding the carousel assembly for preventing intrusions of ambient light (see col.5, lines 60-65) and having a door (30); a drive assembly (16); and a temperature controller, which inherently include a heating mechanism, (see col. 5, lines 65 thru col. 6, lines 1-5). The device further includes controlling electronics, which would inherently include a microprocessor, (see col. 6, lines 1-5).

Response to Arguments

3. Applicant argues that the Eden patent does not teach or suggest a carousel which rotates to place one of the test trays 11 **directly into the detection area**. First of all the claims do not specify such a limitation. The rejected claims merely require the “carousel assembly to directly position the test panels for testing” (claim 57, lines 8-9).

Art Unit: 1744

Even if the claims specified the language cited by applicant, the language is not considered to distinguish from the teachings of Eden. The position in which the carousel in Eden positions the panels is considered to be the detection area. Applicant needs to further define the "detection area" in the claims to distinguish from that which is disclosed in Eden.

Allowable Subject Matter

4. Claims 58,60-62,66,67,69-72.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
